

International Students

The International Student Module is a comprehensive tool for the management of international Student applications and enrolments.

The International Student Module provides a platform for clear, visible and auditable interactions between the provider, the international Student and their nominated agent.

It is compliant with Australian standards of admitting International Students (ESOS Act 2000) and implements robust and secure business functionality.

The module provides functionality to:

- ✓ Facilitate the management of International Student enrolments.
- ✓ Support the provider with their obligation to meet and maintain CRICOS and ESOS compliance
- ✓ Assist with Agent management and financial reconciliation
- ✓ Enable global comprehensive and secure business processes

Key benefits:

- ✓ Management of the admissions process from initial application through to acceptance
- ✓ Streamlined process for Student agreement generation and acceptance management
- ✓ Extensive and easy to use functionality for management of Student fees
- ✓ Fully auditable recording of international Student data and enrolment details
- ✓ Comprehensive reporting capabilities

STRATA - Student Management Solution

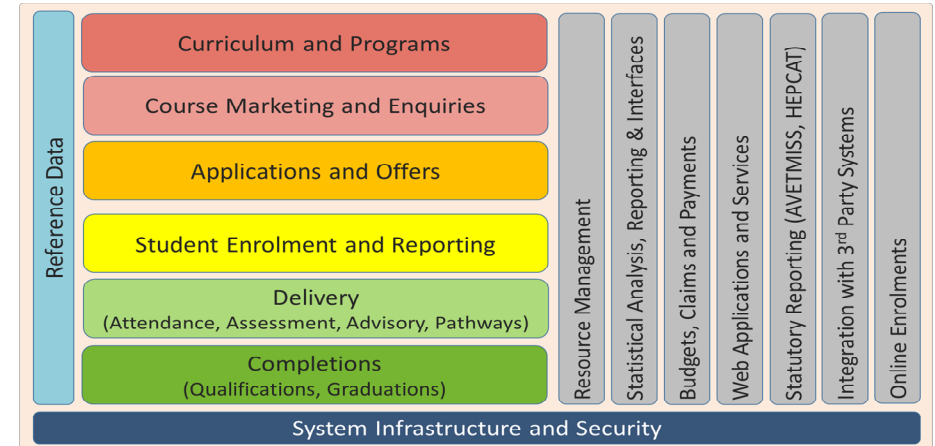

STRATA is designed and built in Australia for the administration of tertiary education institutions. STRATA supports the delivery of vocational, graduate, and post-graduate education. STRATA provides functionality, flexibility, performance and reliability unmatched by any other product available in Australia today both on-site and in the cloud.

2018 is the tenth anniversary of the STRATA Student Management System and AVAXA has been developing STRATA over that time utilizing a shared customer development methodology that ensures a comprehensive up-to-date solution that meets our customer's needs in a timely manner. At AVAXA we are nimble and responsive to the market and passionate about helping our customer's meet their business objectives.

STRATA provides full support for the business processes of education including:

- ✓ Development and management of curriculum, Programs and enrolment Subjects
- ✓ Full end-to-end Student Online Enrolment, including calculation and collection of Student fees
- ✓ Applications Management for Apprenticeships, VETiS, International, Short Courses, Higher Education, Certificate, Diploma and Advanced Diploma
- ✓ Management of International Students for both on-shore and off-shore delivery
- ✓ Management of Program delivery, Student attendance and performance recording via electronic Markbook
- ✓ Management of Testamurs, Statement of Attainment, and Record of Results via a registry
- ✓ Graduation and Event Management
- ✓ Employer Portal, Student Portal and other online tools

- ✓ Resource Management and timetables for Students and Teachers
- ✓ Budgets, Claims and Payments Management
- ✓ History of all transactions for audit purposes

STRATA provides full Online Enrolment functionality. This enables the Student (or their agent) to make an application which supports entry of their personal details, educational background, Program selections and other relevant information to enable the RTO to make an offer to the applicant. Applicants can make payment electronically, via loans or periodic payment schemes or via Debitsuccess.

STRATA supports enrolments for all Vocational and Higher Education, and for a wide range of Programs. The background circumstances of a Student and the type of Program they select to enrol into determines the requirements for enrolment.

If your organization finds it challenging to maintain compliant Student and curriculum records during the entire Student journey, AVAXA's skilled Staff can provide advice and management to ensure a smooth transition to the STRATA Student Management Solution
