

Online Enrolment

STRATA Online Enrolment is a solution which consists of a web based front end designed for applicants, and the back-end interface for the RTO's Staff to manage applications until completion of the enrolment process. It eliminates the need for enrolment sessions, shortens the time to enrol, and increases the likelihood of applicants becoming Students.

STRATA supports a variety of approaches for enrolment, reflecting the many variations that need to be catered for. Each enrolment is influenced by several distinct characteristics such as how the application is received, the type of Program and funding type, and whether it is an initial or subsequent enrolment. The above influences are generally known at the start of the enrolment process. However, there are several additional events and decisions made during each individual enrolment that have the potential to further vary the process for an individual Student. The key features are:

- ✓ Applicants engage through a browser interface that presents a simple step by step series of data gathering pages. Applicants can save and return at any time, or complete the application in one session
- ✓ RTO Staff are engaged through workflow tasks for each applicant where some discretion is required and a judgement to be made during the application process.
- ✓ Management reporting informs RTO Staff where Students are "stalled" in the process and contact can be made to assist applicants who need support to progress through to enrolment.
- ✓ Online Enrolment supports new applications as well as re-enrolment in a continuing Program.

If you want to be at the forefront of new Student engagements, AVAXA's skilled Staff can work with you to optimise your enrolment process and manage your uptake of new Student enrolments.

If you have further questions relating to this offer, please contact AVAXA by calling Andrew Munro or Rod Jones on (03) 9533 7611.

STRATA - Student Management Solution

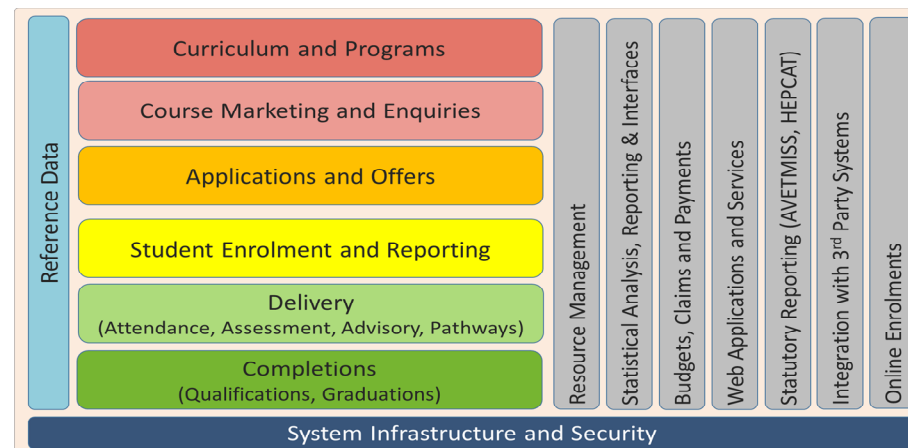

STRATA is designed and built in Australia for the administration of tertiary education institutions. STRATA supports the delivery of vocational, graduate, and post-graduate education. STRATA provides functionality, flexibility, performance and reliability unmatched by any other product available in Australia today both on-site and in the cloud.

2018 is the tenth anniversary of the STRATA Student Management System and AVAXA has been developing STRATA over that time utilizing a shared customer development methodology that ensures a comprehensive up-to-date solution that meets our customer's needs in a timely manner. At AVAXA we are nimble and responsive to the market and passionate about helping our customer's meet their business objectives.

STRATA provides full support for the business processes of education including:

- ✓ Development and management of curriculum, Programs and enrolment Subjects
- ✓ Full end-to-end Student Online Enrolment, including calculation and collection of Student fees
- ✓ Applications Management for Apprenticeships, VETiS, International, Short Courses, Higher Education, Certificate, Diploma and Advanced Diploma
- ✓ Management of International Students for both on-shore and off-shore delivery
- ✓ Management of Program delivery, Student attendance and performance recording via electronic Markbook
- ✓ Management of Testamurs, Statement of Attainment, and Record of Results via a registry
- ✓ Graduation and Event Management
- ✓ Employer Portal, Student Portal and other online tools
- ✓ Statistical analysis, statutory and regulatory reporting (AVETMISS, HEIMS/HEPCAT)
- ✓ Resource Management and timetables for Students and Teachers
- ✓ Budgets, Claims and Payments Management
- ✓ History of all transactions for audit purposes

STRATA provides full Online Enrolment functionality. This enables the Student (or their agent) to make an application which supports entry of their personal details, educational background, Program selections and other relevant information to enable the RTO to make an offer to the applicant. Applicants can make payment electronically, via loans or periodic payment schemes or via Debitsuccess.

STRATA supports enrolments for all Vocational and Higher Education, and for a wide range of Programs. The background circumstances of a Student and the type of Program they select to enrol into determines the requirements for enrolment.

If your organization finds it challenging to maintain compliant Student and curriculum records during the entire Student journey, AVAXA's skilled Staff can provide advice and management to ensure a smooth transition to the STRATA Student Management Solution
